## I. Introductory Discussion

The News Media is an essential medium through which members of the community become informed about the operations and activities of their Police Department. Therefore, every effort will be made to develop a constructive, professional working relationship with all representatives of the news media.

The public has a fundamental right to be informed of events within a community, and the Northampton Police Department is committed to informing the community and news media of events within the public domain that are handled by, or involve the department. However, because of the nature of the police service, there are times and circumstances when it is necessary to temporarily limit and control this flow of information to the public. The purpose of this directive is to provide personnel with uniform standards guiding the release of information to the news media.

## II. Policy

Every record made or received by the Police Department is presumed to be a public record unless it is subject to an exemption as outlined in Section VII of this policy. The Massachusetts Public Records Law provides that every person has an absolute right of access to public information.<sup>1</sup> This right of access includes the right to inspect, copy, or have copies of records provided upon the payment of a reasonable fee.<sup>2</sup> Therefore, it shall be the policy of the Police Department to adhere to the requirements of the Public Record Law as well as the applicable regulations promulgated by the Secretary of the Commonwealth.
